

Introducing a new roster format

As part of the development of the New DASH Network (formerly known as the Alexandria Transit Vision Plan), the Planning department is testing new software that improves many of our processes, and hopefully, the runs we are able to make available to you.

This new software also provides us a new roster document which contains all the information you need to make an informed decision, all in one place, without having to flip back-and-forth from the roster to the run summary.

*Total pay for each run. As a reminder, **all rosters pay a *minimum* of 40 hours/week** regardless of run totals. For more information, refer to CBA 7.2C.

Because this software is being tested, we cannot guarantee the availability of this roster format in the future; however, the Planning department welcomes your feedback on this format.

For your convenience, the traditional Run Summary is still provided in this document.
