#### **Alexandria Transit Company (ATC)**

**BOARD OF DIRECTORS MEETING MINUTES** 

A meeting of the Board of Directors of the Alexandria Transit Company was held on Wednesday, November 14<sup>th</sup> at Alexandria City Hall, Council Workroom, 2<sup>nd</sup> Floor. 301 King Street, Alexandria, VA 22314.

Board members present were David Kaplan, Kerry Donley, Ian Greaves, Matt Harris, Jim Kapsis, Stephen Klejst, Yon Lambert, Richard Lawrence, and Meredith MacNab.

Staff members and visitors attending were: Josh Baker, Raymond Mui, Fatima Ahmed, Rick Baldwin, Martin Barna, Swinda Carcamo, John Lanocha, Lorenza Myers, Alicia Wright, Nicole Evans and Carmen Frasier. There were 38 visitors present. The board holds meetings every second Wednesday from September to June and all are welcome to attend.

#### **Board Meeting**

#### **Agenda Item #1 – Public Comment**

The Chairman called the meeting to order at 5:30 p.m. and recognized 16 speakers during the public comment period followed by a statement by the Chairman.

#### Agenda Item #2 – Consideration of Meeting Minutes Approval

The Chairman asked for consideration of approval of the minutes of October 10<sup>th</sup>, 2018. Mr. Donkey motioned to accept the minutes as presented with Mr. Klejst seconding the motion and the vote passed unanimously.

#### Agenda Item #3 — Reports, Updates and Other Business Item #3a — Chairman's Report

The Chairman welcomed the Board members, staff and guests to the regular monthly Board meeting. The Chairman read a statement to the public on behalf of the ATC Board of Directors.

#### Item #3b - T&ES Director's Report

Mr. Lambert, Director, Dept. of Transportation & Environmental Services shared in advance the following report items with the Board: City Council Budget Guidance, King Street-Old Town Metrorail Station Access Improvement Project Update, and the Announcement of HQ2 at the National Landing, a newly branded neighborhood encompassing parts of Pentagon City and Crystal City in Arlington and Potomac Yard in Alexandria. Mr. Lambert welcomed any comments and questions.

#### **Staff Reports**

#### Agenda Item #4 - General Manager's Report

Mr. Baker, General Manager, provided an oral update of the Management Report as presented to the Board, summarizing the high-level management, performance and operating items. Mr. Baker welcomed comments and questions on the reports.

#### **Agenda Item #5 - Financial Report**

In the absence of Mr. Davis, Director of Finance & Administration, the General Manager provided an oral update on the financial reports.

#### Agenda Item #6 - New Business

**Item #6a** – The General Manager has provided the Alexandria Transit Company Board of Directors Memorandum to City Manager Mark Jinks relating to the budget process. A copy of the final memorandum has been attached for your reference and provides public record of the communication.

**Item #6b** – The General Manager presented the initial Budget Reduction scenario as an attachment, the General Manager will review this and receive feedback for DASH staff to compile the final options to be presented to the City and approved by the Board in December.

**Item #6c** – Oral update provided by Martin Barna, Director of Planning. This month the first of the fall open house public workshops for the Alexandria Transit Vision Plan were conducted. The workshops focused on identifying priorities discussing tradeoffs with the public at the Durant's Arts Center and Samuel Tucker Elementary School. Conditions of the existing transit network were provided in a manner that was understandable and informative to the public to guide the development of priorities. In addition, Martin Barna led public outreach efforts with several ATV Pop-Up events.

**Item #6d** — Oral update provided by Martin Barna, Director of Planning. Over the past year, DASH has worked with WMATA and City Staff to install a series of real-time information displays at key locations throughout the City of Alexandria. These displays provide information to customers on estimated bus arrival times based on actual vehicle locations, and service advisories for re-routes and stop closures. As shown in the map, the displays include large TV screens at major activity centers (City Hall, NVCC, Alexandria, NSF, Southern Towers). In addition to the TV screens, 20 tablet-sized real-time info displays are available at the stops with the highest boardings.

#### Agenda Item #7 - Next Meeting Date & Adjournment

As there was no further business, the Chairman asked for a motion to adjourn. On a motion by Mr. Donkey and seconded by Mr. Klejst, all motions passed unanimously. The meeting adjourned at 7:46 p.m.

The next regular monthly meeting is Wednesday, December 12<sup>th</sup>, 2018 at 5:30 p.m. at the DASH Board Room, 3000 Business Center Drive, Alexandria, VA 22314.

#### Alexandria Transit Company (ATC)

**BOARD OF DIRECTORS SPECIAL MEETING MINUTES** 

A special meeting of the Board of Directors of the Alexandria Transit Company was held on Tuesday, November 27<sup>th</sup> at Alexandria City Hall, Sister Cities Conference Room 1100, City Hall, Alexandria, VA 22314.

Board members present were David Kaplan, Kerry Donley, Ian Greaves, Matt Harris, Jim Kapsis, Stephen Klejst, Yon Lambert, Richard Lawrence, and Meredith MacNab.

Staff members and visitors attending were: Josh Baker, Raymond Mui, Evan Davis, Lorenza Myers, Gabriel Morey, Alicia Wright and Fatima Ahmed. Mr. Robert MacNab, City of Alexandria resident was present.

#### **Special Board Meeting**

#### Item #1 – Welcome and Purpose of Meeting

The Chairman called the meeting to order at 5:35 p.m. thanking the Board for their counsel and cooperation at the last meeting. The Chairman stated that the special meeting will function as a work session.

#### **Item #2 – Debrief & Report on Union Election**

The General Manager provided a debrief and report on the recent union election results and the next steps.

#### Agenda Item #3 – Reports on ALG Group Engagement

The General Manager provided a report on the ALG Group engagement at DASH.

#### Agenda Item #4 – General Counsel Discussion / Legal Representation

The Board discussed the selection of a committee for the purpose of seeking General Counsel for ATC. Mr. Donley, Mr. Lawrence and Mr. Harris volunteered for the search committee and will provide a recommendation to the Board for consideration.

The Board discussed legal representation for DASH. Mr. Donley moved to request the General Manager seek 3 proposals regarding labor relations and legal counsel with Mr. Lambert seconding the motion. Mr. Baker will report back to the Board with a recommendation at the next regular monthly meeting.

#### Agenda Item #5 - Memorandum / Letter to Council Elect

The Board discussed a memorandum and letter to council elect members.

#### Agenda Item #6 – Executive Session

At 7:37 pm, Mr. Donley moved to consider convening an Executive Session for the Purpose of Discussing Legal and Personnel Matters, pursuant to Section 2.2-3711 (A1) of the Code of Virginia, with Mr. Klejst seconding, and the vote was carried in approval.

#### Agenda Item #7 - Next Meeting Date & Adjournment

On a motion by Mr. Donley and seconded by Mr. Klejst, the special meeting adjourned at 8:11 pm. The next regular Board Meeting is schedule for Wednesday, December 12th, 2018 at 5:30 p.m., at the DASH Board Room.

#### **4a Summary: Management Report**

#### FOR THE MONTH OF OCTOBER 2018

#### A. RIDERSHIP:

Total system ridership for the month increased by 4.1% from last October, with 365,467 total passengers. Without the King Street Trolley, total ridership increased by 7.8% from last October, with 297,327 passengers.

**B. SAFETY:** DASH experienced one accident during the month of October. No injuries reported. 10/05 – Car made contact with bus at West Street and Braddock Road. (*Non-Preventable*)

#### C. RELIABILITY & MAINTENANCE:

	October 2017	October 2018	% Change	Industry Avg.
On-Time Performance	82.2%	80.7%	-1.8%	83.6%
Missed Trip Percent	0.02%	0.03%	55.3%	N/A
Avg. Miles Per Road Call	12,990	16,150	24.3%	11,439

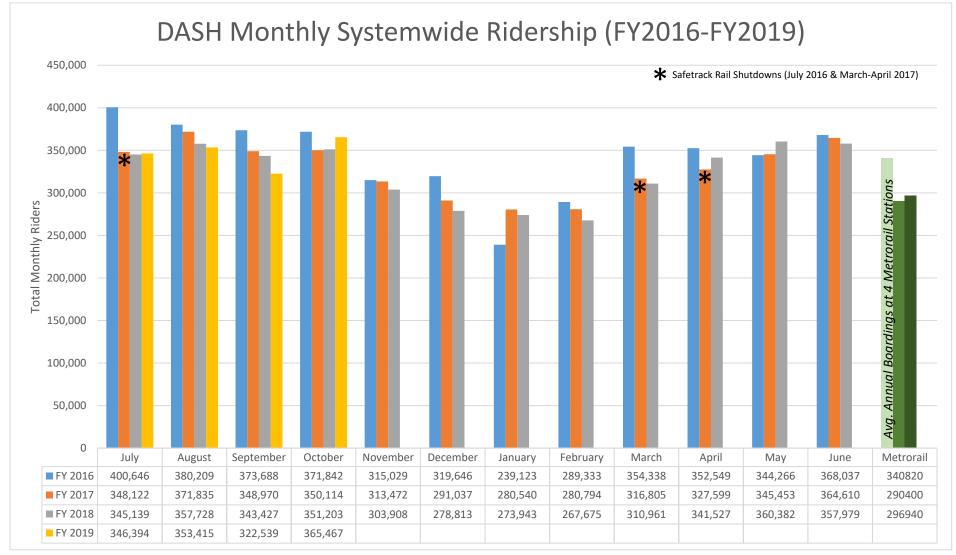

<sup>\*</sup>Note – Beginning in FY19, Planning staff started using a new, more accurate methodology for calculating on-time performance using CAD/AVL data instead of the manual checks by field supervisors.

#### D. SPECIAL EVENTS:

**YMCA CHARTER:** On October 6, 2018, DASH transported YMCA Staff to a training event in Reston Virginia. **TOUCH A TRUCK:** On October 13, 2018, Dash provided a bus for display with several other large city trucks at the Tons of Trucks event.

(System-Wide Ridership October 2018)

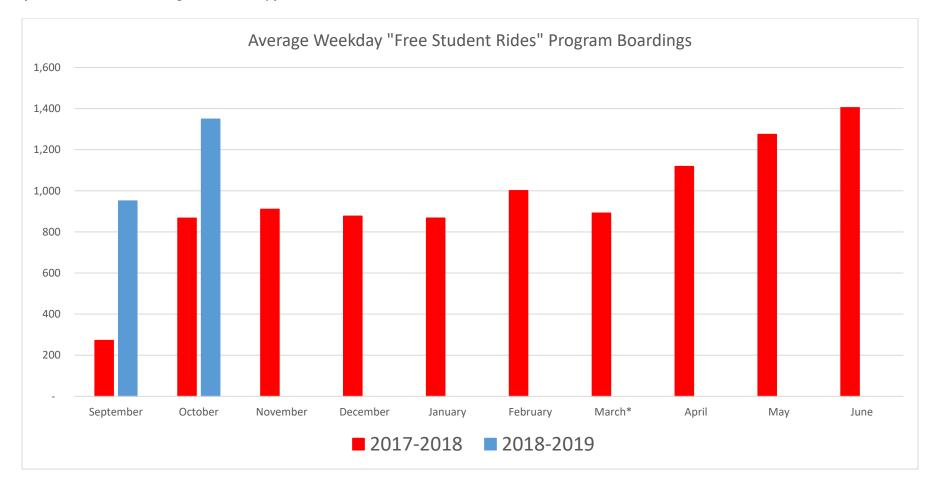

<sup>\*</sup>Metrorail ridership (green columns) represents average daily total boarding's at the City's four Metrorail Stations for FY15-17.

<sup>\*\*</sup>Totals were multiplied by 20 for comparison to DASH monthly data.

Alexandria Transit Company (DASH) Page 6

(Free Student Rides Program Ridership)

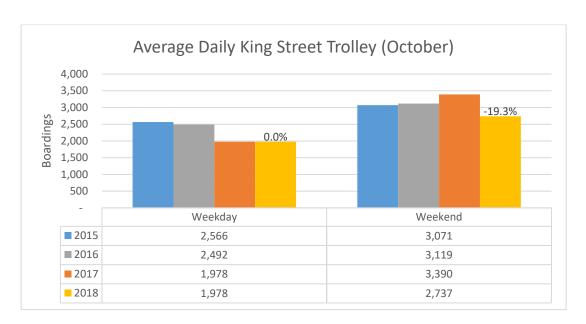

<sup>\*</sup>Free Student Rides Program began as a pilot for T.C. Williams High School for the 2017 – 2018 school year.

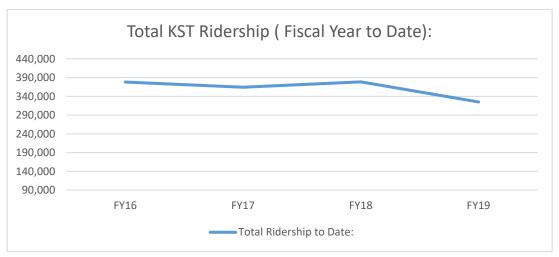

<sup>\*\*</sup>For the 2018 – 2019 school year, the program was expanded to three additional high schools (Bishop Ireton, Episcopal and St. Stephens & St. Agnes)

(King Street Trolley Ridership October 2018)

#### KING STREET TROLLEY - RIDERSHIP + OPERATIONS REPORT

ATC Board Agenda Detail
Agenda Item #: 4e

Item Title:DASH General Manager's SummaryContact:Josh Baker, General Manager

Attachments: Yes
Customer Impact: None
Board Action: None/FYI

#### **4e Summary: General Manager's Summary**

On Thursday, November 1<sup>st</sup>, DASH hosted a special visitor, Mr. Ben Jackson from EasyGoConnect in Australia. Ben joined us to spend a day at DASH learning about our system and how we do things. We were recommended to him as one of the best systems to visit, a great honor! He even brought us a tube of Vegemite to try. (Staff have yet to take on this challenge)

On Monday, November 5<sup>th</sup>, the General Manager attended WMATA's Bus Transformation Project Strategy Advisory Panel Meeting. The inaugural meeting is the first step in helping to guide the project's methodologies and results as we move towards a reimaged role for Metrobus in the Washington Metropolitan Region.

The core network design workshops for the Alexandria Transit Vision Plan were held at DASH on Tuesday, November 6<sup>th</sup> to Thursday, November 8<sup>th</sup>, led by Jarrett Walker and Scudder Wagg of Jarrett Walker + Associates.

#### **Pedestrian Collision Avoidance System**

We are proud to announce that the Virginia Department of Rail & Public Transportation has selected DASH as recipient of additional funding in the amount of \$182,000 to equip 17 additional buses with the Mobileye Shield+ Collision Avoidance System. The Mobileye® Shield+ System is the latest technological advancement for preventing collisions between vehicles and Vulnerable Road Users (VRUs) including pedestrians and cyclists. VRUs often are not seen by the bus operator due to large blind spots around the vehicle, especially when making turns. Bus operating conditions demand the highest level of awareness by the vehicle operator. Shield+ increases awareness and safety for the driver and VRUs around the bus to prevent collisions.

This project is in line with the City's Vision Zero initiative and requires a minimal local match of just \$7,600. These funds will come from DASH's existing capital improvement funds in our operating budget. The total system cost per bus is approximately \$10,000.

#### **Electric Bus Project Update**

DASH is actively moving forward working with the Virginia Department of Rail & Public Transportation on the Volkswagen Settlement fund electric bus program. We have determined that DASH has six (6) vehicles eligible to be replaced in this program. Funding applications will be submitted during the FY 2020 grant cycle which closes February 1, 2019. This program will provide the buses along with the necessary charging infrastructure and installation. Pending award of the funds, we anticipate buses would enter service sometime early summer of 2021.

## DASH in the Community (DASH Annual STUFF THE BUS Donation Drive)

DASH was proud to host the second annual Stuff the Bus Donation Drive to benefit Carpenter's Shelter in Alexandria. Utilizing the King Street Trolley and the Celebration Bus so beautifully decorated during Art on the Avenue, we parked the vehicles at various locations around the City of Alexandria and collected coats, canned goods, scarves, hats, and gloves. We received a generous amount of donations which were donated to the Carpenter's Shelter and received by Mary-Parke Lamm, Deputy Director.

#### **Alexandria Transit Company (DASH)** Financial Update

#### For the Four Months Ended October 31, 2018

#### October Results - Budget vs. Actual Report

DASH experienced a current month deficit of (\$9,680) in October. The most significant change from September pushing us into a small deficit is the payment of our second vehicle liability insurance installment for the fiscal year.

After four months of operations, the year-to-date budget surplus stands at \$43,391, and is reduced to \$8,219 when grant activity is included. We expect this surplus to become a year-to-date deficit after November, which is the first of 2 three-payroll months during the fiscal year.

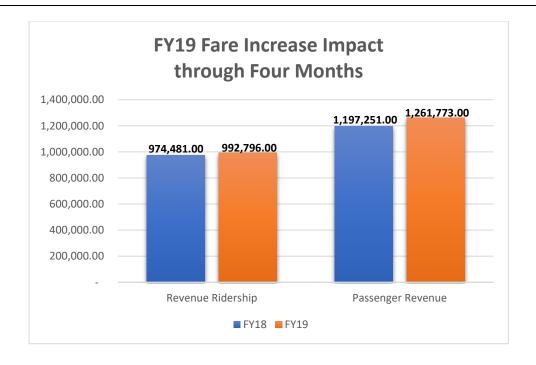

Significant budget variances and notable accounts in October include:

- Higher diesel prices led to fuel costs exceeding budget by (\$22,392), projected to grow to (\$82,363) by year end. While fuel costs cannot be directly controlled, we are in the process of switching diesel suppliers to the Metropolitan Washington Council of Governments (MWCOG) contract. This contract, for which WMATA is the lead procurement agency, is currently being renegotiated with the vendor, Mansfield Oil. We will not be able to join until new terms are established.
- Vehicle maintenance (outside shop work) costs were over the monthly budget by (\$5,294) due to outside work required to fix problems with the hybrid bus engines and transmissions. While maintenance staff is working closely with the manufacturers in every case and has succeeded in getting them to partially cover repair costs, we anticipate ongoing challenges with the hybrid buses for the remainder of their useful life and project a (\$26,008) deficit in this budget line for FY19.
- As mentioned, we paid the **second vehicle liability insurance installment** in October, leading to the monthly variance on that line of (\$60,397). We anticipate insurance costs to come in under budget for the year.

#### FY 2019 Forecast Unchanged in October

October's passenger revenue of \$333,726 was the second strongest of the year to date, driven by 22 commuting days during the month. The first quarter's trend of essentially flat revenue ridership and a slight rise in passenger revenue year over year continued in October:

	FY18 – Oct YTD	FY19 – Oct YTD	Change
Revenue Ridership	974,481	992,796	18,315
Passenger Revenue	\$1,197,251	\$1,261,773	\$64,522
Average Fare	\$1.23	\$1.27	\$0.04

Through four months, the increase in base fare from \$1.60 to \$1.75 and in DASH Pass price from \$40 to \$45 accounts for 85% of the increase in passenger revenue.

The FY19 revenue projection remained unchanged at \$3.54 million, which will fall 7.1% short of budget (\$270,605). With expenditures expected to come in under budget by \$8,211, the FY19 overall deficit is projected at (\$262,394), a slight negative change of (\$2,039) from the September projection.

#### **Revenue Opportunities**

As the Board is aware, a significant percentage of DASH riders pay no fare at all. The table below details the two main categories of riders who pay no fare and the opportunity cost of granting these free rides. This is a simple analysis and does not consider *who* or *what entity* should or may be able to pay for these rides, nor fare elasticity relating to beginning to charge fares to any of these riders directly.

Non-Paying Customer Type	Oct Ridership	Potential Fare	Oct Revenue
High School Students	32,553	\$1.75	<b>Opportunity</b> \$56,968
King Street Trolley	68,140	\$1.75	\$119,245

For example, whereas any number of concerns could be raised about charging the high school riders directly, it may be possible to seek revenue for these rides from ACPS. On the other hand, it may make sense to charge Trolley riders directly, and the fare elasticity for the Trolley would need to be considered.

As estimated last year during the implementation of the TCW Free Student Rides pilot program, the operation of the program also incurs additional unfunded costs in the form of added dwell time (\$8,800) and extra peak buses (\$21,600) during peak student usage periods.

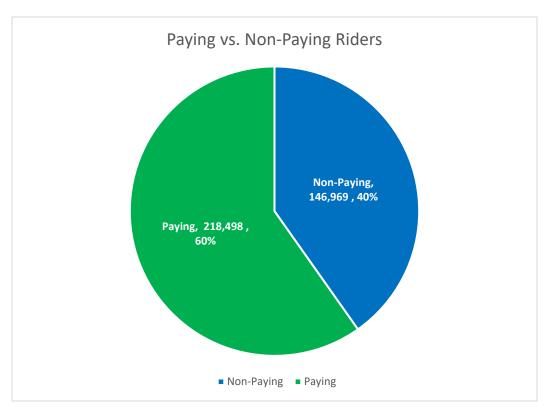

#### **October Customer Analysis by Fare Type**

The following chart breaks out total October ridership of 365,467 by paying and non-paying customer types.

Customer Type	Oct Ridership	Fare Paid	% of Total
Base Fare	144,313	\$1.75	39.5%
DASH Pass	24,203	Varies	6.6%
Bus-to-Bus Transfers	44,564	-0-	12.2%
WMATA Tokens and Regional Passes	8,355	Pass-Varies (Token=\$1.75)	2.3%
Metrorail-to-Bus Transfers	39,037	\$1.25	10.7%
AT2X Mark Center ID	2,590	Paid by DoD Charter	0.7%
Promotional / Other Free	1,712	-0-	0.5%
High School Students	32,553	-0-	8.9%
King Street Trolley	68,140	-0-	18.6%
TOTAL	365,467		100.0%

Overall, 40.2% (146,969) of DASH trips generated no revenue in October, with the remaining 59.8% (218,498) generating the entire \$333,726 in passenger revenue.

As it is not practical to charge an additional fare for bus-to-bus transfers, students and Trolley riders are the two potential customer types for which there are new revenue opportunities (as noted above).

Additional revenue opportunities from current customers include a general fare increase and/or instituting peak fares during commuting time windows (opening-9:30am, 3-7pm).

Agenda Item #: 6

**Item Title:** New Business

**Contacts:** Josh Baker, General Manager

**Attachments:** 6b) & 6c)

**Customer Impact:** 6a) Significant ● 6b) Moderate ● 6c) Minimal ● 6d) Minimal ●

**Board Action:** 6b, 6c, 6d - Consideration of Approval

#### 6a - Budget Reduction Scenario Review & Approval

Based on preliminary budget guidance received from the City Manager's Office, the General Manager is proposing budget reduction scenarios for FY 2020. These scenarios are presented in Attachment #6a, highlighting the General Manager's recommendations to the Board for submission to the City Manager.

**Board Action:** Motion and Approval

**Next Steps:** DASH Begins TDP Update Process

#### 6b – FY 2020 Preliminary Budget Review & Approval

Please review Attachment #6b for the preliminary FY 2020 Budget. A full presentation of the budget will be provided by the General Manager and Director of Finance highlighting the key changes to the budget, as well as an explanation of the source of the funds and basis of the calculations.

**Board Action:** Motion and Approval

**Next Steps:** Approved Preliminary Budget Request will be Submitted to City Manager

#### **6c – Labor Negotiations Attorney Staff Recommendation**

The General Manager will provide recommendation to proceed with a contract amendment to enable First Transit to handle Collective Bargaining for the forthcoming negotiations with the Amalgamated Transit Union. This recommendation is in line with Board Guidance and enables First Transit to be directly involved in the decisions pertaining to the employees of Transit Management of Alexandria, Inc. (a Subsidiary Corporation of First Transit)

**Board Action:** Approval of First Transit Proposal and Approval of General Manager to execute amendment

to existing Management Services Agreement.

Next Steps: None.

#### **6d – Resolution Supporting SmartScale Application**

Board Resolution required to support SmartScale Application as presented by Martin Barna, Director of Planning.

**Board Action:** Motion and Approval of Resolution

**Next Steps:** None.

Budget Reduction Scenario Review & Approval

#### 2.5% Subsidy Reduction Option – as requested by City Manager

Along with City departments and other outside agencies, the City Manager has requested that DASH prepare a 2.5% subsidy reduction scenario. Excluding some operating and Trolley funding which comes from dedicated use taxes, DASH has been given a reduction amount of \$289,887 for FY20. Given that the City faces a \$28 million budget gap that needs to be closed, some of these reduction options will be taken in formulating the City Manager's proposed budget.

The City's total subsidy to DASH in FY19 is \$12,313,592. In the 2.5% reduction scenario, the FY20 subsidy would fall by \$289,887 to \$12,023,705.

The simplest way to meet the \$289,887 target would be to implement one of the subsidy increase reduction options proposed in the following section. The first ranked option, a base fare increase from \$1.75 to \$2 with a DASH Pass price increase from \$45 to \$50, is estimated to generate \$304,827 in new passenger revenue. This would satisfy the reduction request with some room to spare.

That being said, DASH is requesting a total subsidy *increase* of \$1,286,251 for FY20. Taking the 2.5% reduction from this *increased* subsidy is feasible with the fare increase and/or other options proposed below. For DASH to forego the entire increase *and* absorb the 2.5% reduction, a much wider range of service cuts, revenue increases, and other cost reductions would need to be considered.

#### FY 2020 Subsidy Increase Reduction Options

In response to the Board's request that subsidy increase reduction options focus on revenue, staff have prepared the following.

Subsidy Increase Reduction Options	Amount
Fare Increase: Increase base fare to from \$1.75 to \$2 / DASH Pass from \$45 to \$50	304,827
<b>Bus Advertising</b> : Begin selling advertisements on the exterior and interior of DASH buses.	250,000
<b>Student Program</b> : Seek cost recovery for student trips from ACPS.	180,170
Potential New Revenue	734,997
FY20 Subsidy Increase Before Reduction	1,286,251
FY20 Subsidy Increase if All Options Taken	551,254

#### **Recommended Options**

#### 1) Fare Increase

While a second consecutive year of fare increases is not ideal, FY19 results to date indicate that ridership impacts may not be severe, particularly because DASH's fare remain lower than all other regional bus systems.

An increase in the base fare from \$1.75 to \$2 and the price of a DASH Pass from \$45 to \$50 would bring DASH level with Metrobus, Fairfax Connector, and Arlington Transit (ART). **Assuming a 3.3% loss of revenue ridership, we estimate this fare increase would yield \$304,827 in new passenger revenue over FY19.** 

	Base Fare	DASH Pass	Total
New Fare	\$2.00	\$50	
Revenue Ridership Change	(92,995)	6,409*	(86,587)
Revenue Change	\$230,241	\$74,586	\$304,827

<sup>\*</sup>DASH Pass ridership is projected to increase because monthly DASH Pass savings compared to the base fare increases in this scenario by \$5.

The introduction of **Mobile Ticketing** before the end of FY19 may attract additional riders as DASH would be the first fixed route bus service in the region to offer this payment method. This could further mitigate any ridership losses due to another fare increase.

#### 2) Bus Advertising

As the Board is aware, DASH has not accepted commercial advertising placements in the past. DASH does use interior space to display notices and public service announcements related to the City of Alexandria. Other local bus systems such as Metrobus and Fairfax Connector do allow exterior and interior ads on their buses.

An initial review of potential advertising revenue, based the exterior bus rate card for Metrobus, suggests DASH could earn about \$250,000 in its first year accepting ads. Potential revenue could be higher over time, but we believe this is a conservative first-year estimate.

Metrobus uses a third-party advertising company to receive and manage ad placements with customers. We propose to solicit proposals from several such companies to determine the cost associated with such a contract. It is likely that this contract-type arrangement would be more economical than retaining qualified advertising professionals on the DASH payroll. These advertising companies also open DASH to a national ad market that would be more difficult to otherwise reach.

#### 3) Student Program Cost Recovery

As noted in the October results, there were 32,553 free trips for Alexandria high school students during October. In FY18, the first year of the program, free student ridership was 205,908. These ridership numbers demonstrate the popularity of the program, which leverages previously unused bus capacity at virtually no additional cost. As this program is designed to provide a benefit to Alexandria youth and families and encourage a lifelong habit of transit ridership, it does not seem appropriate to ask the students to pay fares again. On the other hand, if there is no cost recovery available for these rides, their full cost has to be borne by the City subsidy.

It makes sense to pursue an arrangement in which ACPS and potentially the other private high schools provide some compensation to DASH for these rides. **Taking the FY18 student ridership, at the base fare of \$1.75, less a 50% reduction for the uncertainty involved in actually securing an agreement, we estimate that perhaps** 

Alexandria Transit Company (DASH) Page 25 **\$180,170** could be raised for the free student program. Of course, ultimately any funding from ACPS is also coming from Alexandria's taxpayers, therefore this question is subject to more detailed internal discussions to find the best solution.

#### **Options Not Recommended**

#### **Peak-Only Fare Increase**

Another option which has been discussed is to limit a fare increase to peak hours only (6-9am, 4-7pm). Dynamic fares by time of day are only feasible for SmarTrip users, therefore in this scenario the base fare would increase to \$2, with an off-peak SmarTrip discount to \$1.75. Our estimate for this scenario projects a FY20 revenue increase of approximately \$188,000, compared to \$304,827 for the general fare increase.

After some consideration, we do not recommend this option due to the complexity it poses for riders. Further, it incentivizes riders to use off-peak service which is less frequent and thus less useful for customers. Given the \$2 generally accepted regional bus fare, it also leaves revenue on the table only to provide a small discount to a subset of DASH riders.

#### **King Street Trolley Fares**

The largest group of DASH riders who pay no fare are King Street Trolley (KST) riders. KST ridership in FY18 was 869,796 and if we considered \$1 to be a reasonable fare, there could theoretically be \$869,796 in potential revenue.

The KST was designed to be a free service primarily benefitting tourists and families visiting Old Town Alexandria. The free fares encourage a friendly "hop-on-hop-off" experience that allow residents and visitors to explore Old Town shops and attractions at their leisure. Since the KST has always been free with no real barriers to entry, adding fareboxes and charging fares for the first time would likely have a negative impact on tourism and a significant downward impact on ridership. Without experience to guide us, we can nevertheless easily imagine a 40-50% reduction in ridership.

Given the purpose of the Trolley in Alexandria and its very public role in promoting tourism in Old Town, DASH management does not recommend this option.

#### **Federal Operating Funding (FTA)**

In response to the interest in potential federal funding opportunities for DASH, the short answer is that operating assistance to DASH is not available under Federal Transit Administration (FTA) grant programs.

Yet there is potential for **capital assistance** (bus purchases) under programs such as Congestion Mitigation and Air Quality (CMAQ) and the discretionary Capital Assistance Grants (5309). The City's Transit Services division is currently researching these opportunities, and DASH will remain in close communication regarding them. <u>It is important to understand that along with federal funding comes increased direct audit and reporting requirements.</u> Personnel would need to be assigned to cover these responsibilities, at either the City or DASH level.

FY 2020 Preliminary Budget Review & Approval

## Alexandria Transit Company Fiscal Year 2020 General Manager's Proposed Operating Budget

As DASH approaches FY 2020, we are aware that in the coming fiscal year we will be operating in a new environment. Not only will we be completing our first collective bargaining agreement with the Amalgamated Transit Union (ATU), we will be pursuing opportunities to leverage technology and redesign our network to continue to provide safe, courteous, and reliable mobility to the residents, workforce, and visitors of Alexandria.

This budget proposal provides the resources to meet the needs of a first agreement with the ATU as well as putting DASH in a strong position to achieve its goals. It calls for an increase of \$2.18 million to balance the budget, fund service obligations, maintain operations at current levels, and allows for pay changes as previously proposed to the Board.

#### **FY20 Expenditure Increase Proposals:**

#### 1. Bus Operator and Supervisor Pay Increase

- a. Gives DASH the resources to reach a first agreement with the ATU (for bus operators only)
- **b.** Incentivizes bus operator and supervisor retention, lowering recruitment and overtime costs and driving better performance

#### 2. Maintenance Staff Pay Increase

- a. Maintenance remains non-unionized, however pay still lags behind competitors
- **b.** Enables shorter pay scale and higher starting and ending pay rates

#### 3. Restores the Safety Manager position and corrects compensation disparity's for Training Staff

- **a.** Restores the Safety Manager position which had been cut in recent years, moving the workload of incident reporting and research and legal support off the Training Officers, freeing them to focus on bus operator training.
- b. Adjusts Training Officer pay to parity within the region.

#### 4. Creates a new Labor Relations Manager position

a. Given the recent union election, this position is needed to handle the detailed work of interacting with union requests, grievances, and documentation on a daily basis.

#### 5. Legal Counsel – Both Labor Relations and General Counsel

- a. Provides for essential legal counsel to support DASH management during collective bargaining to reach a first agreement with the ATU.
- b. Provides for DASH to retain a general counsel, as requested by the Board

#### 6. "Current Services" Pay Adjustments

- **a.** Normal adjustments for administrative staff and step increase for pay scale staff (before ATU agreement or new maintenance pay scale).
- b. More accurate funding of 401(k) matching contributions

#### 7. Non-Personnel

- a. Software licenses and service agreements for intelligent transportation systems (ITS) packages, supporting real-time bus location, efficient fleet management, pedestrian safety, and route planning
- b. Fuel cost increases per Energy Information Administration forecast

#### 8. Equipment Replacement "Capital Outlay"

- a. Restores funding to historic baseline level following deep cut in FY19
- **b.** Funds purchase of needed maintenance equipment such as safer floor jacks, more efficient and energy-saving garage doors, and scheduled IT hardware replacement.

#### 9. WMATA Shuttle 2 - Summer 2019 Metrorail Shutdown

- a. Non-personnel costs associated with DASH operating WMATA's proposed Shuttle 2 from Franconia-Springfield to Reagan National Airport via Old Town during the Summer 2019 Metrorail shutdown. Personnel costs are included elsewhere in the budget.
- b. All costs are covered by expected charter revenues from this contract.

#### **FY20** Revenue Increase Proposals:

#### 1. DASH Passenger Revenue (-\$262,072)

- a. Under current fare policy and ridership trends, we have no reason to expect passenger revenue to increase in FY20 over FY19 projections. We have therefore simply rounded FY19 projected passenger revenue and applied it as the starting point for budget discussions for FY20.
- **b.** Proposed changes to fare policy are included separately in the **FY20 Subsidy Increase Reduction Proposal**.

#### 2. DASH Transit Charter Fares (\$1,153,241)

- **a.** This increase in charter revenue is sourced from the regular annual increase in the Dept. of Defense contract to operate the AT2X Mark Center Express route and the expected revenue from operating WMATA's Shuttle 2 during the Summer 2019 Metrorail shutdown.
- **b.** The Shuttle 2 contract is obviously a one-time source of funds, which nevertheless can help DASH through FY20. In FY21, we expect to be implementing service changes related to the Alexandria Transit Vision (ATV) redesign of the network. These changes could have a significant budgetary impact.

#### 3. City of Alexandria Subsidy (\$1,286,251)

- a. The above changes in expenditures and revenues net to a subsidy increase of \$1,286,251, split between a 4% increase in the King Street Trolley subsidy (\$38,357) and the remaining regular operating subsidy (\$1,247,894).
- **b.** Understanding this is a starting point, DASH has also made a series of recommendations to reduce this subsidy increase. See **FY20 Subsidy Increase Reduction Proposal**.

# Alexandria Transit Company Board of Directors Meeting

## **Meeting Agenda Detail #6d Attachments:**

Letter Supporting SmartScale Application

December 12, 2018

Public Information Officer at DRPT Virginia Department of Rail and Public Transportation 600 E. Main Street, Suite 2102 Richmond, Virginia 23219

To Whom It May Concern,

On behalf of the Alexandria Transit Company's Board of Directors, I am writing to you and the Commonwealth Transportation Board to express support for five project applications to the FY 2024 / 2025 Six Year Improvement Program (SYIP) being evaluated as part of the SMART SCALE program. These projects include:

- West End Transitway This project provides reliable, frequent Bus Rapid Transit (BRT) service along the Van Dorn, Beauregard, and I-395 Corridors, connecting major activity centers within the region.
- Improvements to the Landmark Transit Hub This project will improve pedestrian and bicycle access to a future transit hub and major mixed use activity center
- Safety and capacity enhancements at Duke Street / West Taylor Run Parkway / Telegraph Road This project will improve pedestrian, bicycle, transit and vehicular safety at a major congested intersection that provides access to the regional roadway network.
- Citywide Transit Signal Priority This project will construct Transit Signal Priority (TSP) at 56 intersections throughout the City and will improve the speed, efficiency and reliability of transit service.
- **Zero Emission Vehicle Expansion** This project will provide new buses and energy infrastructure to expand a DASH zero emission bus program, an environmental improvement that is consistent with the City's Environmental Action Plan.

These projects will increase mobility and help to reduce congestion both within Alexandria and the region. All five projects will improve transit operations, encourage multi-modal mobility options, reduce traffic, and promote environmental sustainability.

We appreciate the opportunity to provide comment on the Six Year Improvement Program.

Sincerely,

David Kaplan Chairman, ATC Board of Directors

Cc: Yon Lambert, Director of Transportation & Environmental Services, City of Alexandria Josh Baker, CEO/General Manager, Alexandria Transit Company (DASH)

#### FY 2024 / 25 SMART SCALE APPLICATIONS – LIST OF POTENTIAL STAKEHOLDER SUPPORT LETTERS

- West End Transitway Corridor Investments –\$60,000,000 This project is a very high priority for the City because it would provide reliable, frequent Bus Rapid Transit (BRT) service along the Van Dorn, Beauregard, and I-395 Corridors (a corridor of statewide significance), connecting major activity centers. Funds will be used to complete design, purchase rolling stock, and construction. The transitway and associated BRT service would connect residents, visitors and employees to major transit centers along the corridor including the Pentagon Transit Center and Metrorail station, Shirlington Bus Station, Mark Center Transit Center, the Van Dorn Metrorail station and two other transit hubs in Alexandria Landmark Mall and Southern Towers.
- Access Improvements to the Landmark Transit Hub: \$10,000,000 This project will improve access
  to the West End Transitway BRT and other local Metrobus and DASH routes. Improvements
  would enhance access to the soon-to-be redeveloped Landmark Mall site with new or improve
  existing street right-of-way, sidewalks, bicycle lanes, cycle tracks and other infrastructure to
  support increased access to all transit services.
- Safety & Capacity Enhancements at Duke Street / West Taylor Run Parkway / Telegraph Road: \$4,500,000 This project will encompass design and general safety improvements to Duke Street, Taylor Run Parkway, and Telegraph Road. The project consists of major intersection safety improvements for walking, biking and driving as well as accessibility and bus stop improvements. The project would also install a new bus stop compatible with future transitway operations, and new signalized intersections for access and safety. The project also includes upgrades to sidewalks and crosswalks throughout the project area, including improving the sidewalk along the west side of West Taylor Run approaching the Duke Street service lane that requires full reconstruction and utility relocation for ADA compliance.
- Citywide Transit Signal Priority This project includes the design, configuration, and construction of transit signal prioritization (TSP) system at 50 intersections across five major transit corridors in the City of Alexandria (King St, Seminary Rd, Beauregard St, Van Dorn St, Duke St). The scope also includes the installation/retrofitting of onboard TSP equipment for 44 remaining buses in the DASH fleet so that he buses could communicate with the TSP sensors at each intersection and trigger the signal prioritization sequence. As an additional benefit, the TSP system could also be utilized by Emergency Vehicles, which are already TSP-enabled and other transit providers.
- Zero Emission Vehicle Expansion This project would allow DASH to expand its new zero-emission bus fleet program by purchasing twelve (12) zero-emission expansion buses and any additional charging, maintenance or ITS equipment that is needed to support the new vehicles. The twelve new buses would be used to provide new or expanded service in high-development areas such as Eisenhower Avenue, Van Dorn Street, and Potomac Yard.
