**DASH INTERACTIVE VOICE RESPONSE
& REAL-TIME INFORMATION**
Whitney Code
DASH Marketing & Communications Manager

Murat suggested adding QR codes to bus stop signs.
Bonnie commented that QR codes are helpful to people who are blind because bus stop sign text is difficult to read.
Sandy asked for clarification on what type of information is being displayed on electronic displays at bus stops. Explanation provided was that generally real-time information is displayed. There will be an indicator on screen if scheduled data is being displayed.
